2013	Chair, Chairs Subcommittee on Physician And Chairs' Orientation	MMC
2013	Chair, Competency Subcommittee of the	MMC

Major Research and Educational Interests

Injury Prevention and Epidemiology

In the mid-1980s and 1990s the use of injury epidemiology as a means of planning community-based interventions was a major focus of my community-based research. This is represented in funded programmatic research and numerous articles published on the Harlem Hospital Injury Prevention Program which resulted in a national model on community-based interventions. This work also led to policy directions and statements from the American Academy of Pediatrics and other organizations.

Mental Health Integration in Primary Care Settings – My research in this field has extended to a regional survey assessment of training needs (survey study); an educational intervention with before and after control design; a quality improvement project on the integration of mental screening and follow-up in the NY tri-state area; and a feasibility assessment of a web-based portal for parent pre-visit questionnaire. (See grants portfolio) This work led to a statewide effort by OMH (Project Teach) to train primary care physicians in the assessment and treatment of mental health disorders in children (see publication, 2014). This work has recently also continued with the receipt of the AmeriCares and Friends of Children grants following Hurricane Sandy. Publications in this area include policy briefs, peer-reviewed work of the AAP mental health task force and original research on mental health screening in high risk populations such as children at risk for child maltreatment.

Other studies in children's mental health in primary care include a study which tests the impact of the Multiple Family Group on child mental health and on various parent and family-level outcomes. Specifically, this project's overall goal was to train a general academic pediatric clinician-researcher with special emphasis on children's mental health (MH) services research. The sub research study question involves validation of the Strengths and Difficulties functional assessment scale in the group of children enrolled in MFG.

Adolescent Behavior – my research in the 1990s focused of predictors of adolescent sexual behaviors. This involved the use of the Health Belief Model in predicting consistent condom use to protect against pregnancy and HIV/AIDS/STI. The research also involved a quasi-experimental design testing a pregnancy prevention computer-assisted intervention in Harlem adolescents.

Child Abuse Research and Education – I have been involved in child abuse program development and evaluation for over two decades and have published in this area. Most recently, I am funded by NICHD/NIMH in a project entitled *Stop, Look and Listen: Separating Fact from Fiction in Evaluation Cases of Child Abuse: An Interactive Learning tool for Pediatricians*. Phase I of this research involved the development of a prototype educational tool to support clinician decision in reporting of suspected child abuse and neglect. Phase II application has refined the prototype and expanded to six case and has included a preliminary evaluation. A separate project which originated from this initial one examines the role of implicit bias in the identification and reporting of child abuse by mandated reporters. An MOC part 2 as well CME accreditation is being sought.

Most recently, at Upstate Medical University, Dr. Ann Botash applied and was granted ACGME accreditation for a Child Abuse Fellowship. Laraque-Arena serves as a Research Mentor for this fellowship – only the second such fellowship in New York State – following the one founded at Maimonides Medical Center.

Policy – Policy implications and statements compose a large part of my scholarly portfolio. The policy realms covered include health care delivery models, child abuse, injury prevention, and adolescent health risk behaviors. The focus of most of the policy papers related to underserved populations.

In March 2011 I was nominated and accepted to be a member of the **Institute of Medicine Committee on Integrating Primary Care and Public Health**. This committee was charged with examining ways to better integrate public health and primary care to assure healthy communities. The areas of focus included cardiovascular disease inclusive of obesity, tobacco use, other risk factors as well as additional topics relevant to health disparities or specific populations. Cross-cutting issues such as behavioral health are included. I also participated in the IOM meeting Next Steps for Implementing the IOM Epilepsy Report: A Decision-Making Tool for People with Epilepsy and Their Families.

In the past two years as President of SUNY Upstate Medical University and Health System CEO I was appointed by the NYS Governor, Andrew Cuomo to be the co-chair the **Central New York Regional Economic Development Council** (2016-present; one of ten regional economic development regions in New York State); and April 23, 2018 I was appointed by the Governor to be co-chair of statewide **Maternal Mortality Task Force**.

Training - The major goal of the multiple training grants that I have obtained from 2002-2010 has been to train generalist specialists in pediatrics and internal medicine with a focus on underserved communities and thematic emphasis on Healthy People 2010 objectives (mental health, child abuse, respiratory diseases such as asthma, nutrition and overweight, environmental health). All fellows have obtained a Masters in Public Health and have been mentored to carry out and publish a research project addressing key morbidity and mortality areas and areas of health promotion and disease prevention. The curriculum has also emphasized the development of strong teaching skills using adult learning theory.

In 2011, I established the Pediatric Specialty Consultation Service sponsored by Maimonides Medical Center at the Maimonides Infants & Children's Hospital of Brooklyn and the corresponding child abuse pediatrics fellowship in collaboration with New York University. Maimonides Graduate Medical Education Committee has approved both a new child abuse fellowship and a NICU fellowship in collaboration with NYU. The Child Abuse Fellowship was accredited 7/1/2011 and the first fellow began training. The NICU fellowship has rotated the six NYU fellows (one supported by MMC) through the MMC Regional Perinatal Center. In 2012, the Endocrine Division of MMC established the first MMC sponsored Pediatric Endocrine Fellowship. The Division of Cardiology continues with a Cardiology Fellowship in collaboration with NYU.

In 2013, in response to Hurricane Sandy my education/research group sought to integrate mental health training within the immediate response to a disaster. In support of this, two grants were received that will lead to the adaptation of the Reaching Children Initiative and the Child Adolescent Psychiatry-Primary Care curricula alongside principles of psychological first aid.

See also above, under child abuse research and education.

Global Health – My APA Presidential Address was on global child health and the framework for response to the Millennium Developmental Goals in the context of the mission, vision and values of the Academic Pediatric Association. The core principles of this address are detailed in the publication *Global Child Health: Reaching the Tipping Point for All Children* (Academic Pediatrics). Part of my presidential project was founding and chairing the APA Global Health Task Force. The Task Force resulted in the publication of the *Global Health Competencies*. Concurrently, I became the American Academy of Pediatrics (AAP) oversight Chair of the Advisory Committee to the Board on Global Child Health. During my tenure as the oversight Chair I represented the AAP at a number of global health events in Haiti, NCD-UNICEF, GAVI initiative to expand immunizations to low-resource countries. Currently, I am editing the book entitled *Global Child Health: Education and Research, First Edition* to be published by the American Academy of Pediatrics. My co-editor is Bonita Stanton, MD. The book will be anchored by the discussion of the core principles, described in more detail the identified core competencies (administrative, clinical, research and education), with focused chapters on specific areas of research and education, case examples of best practices inviting an international group of global health researchers and educators.

Distance Learning – Obtained the sub-award (\$27,778; November 2014-April 2016) for Maimonides Infants & Children’s Hospital of Brooklyn to be the site for Project ECHO (Extension for Community Health Outcomes) with the medical center as the tele-hub for education of primary care clinicians in the care of children and youth with epilepsy. Program launched October 15, 2015 with the first of 13 problem-based and didactics sessions. The purpose of this Sub-award is to develop a feasibility and quality improvement pilot for children and youth with epilepsy (CYE) in New York. This pilot is designed to assist primary care pediatric providers in managing CYE through the ECHO model of health care delivery and education to expand existing capacity to provide best practice care for CYE in rural and underserved areas and to monitor outcomes to ensure quality of care. The project is funded by MCHB/HRSA, award no. U23MC26252. There is a national evaluation of this project being conducted by the American Academy of Pediatrics.

GRANTS RECEIVED

Past Grants

Principal Investigator: Danielle Laraque, MD

Source: United Hospital Fund

Title: *Reaching Children Initiative-Learning Collaborative (RCI-LC): A Tri-State Children’s Mental Health Collaborative*

Funding Period: July 1, 2006-June 30, 2007 (\$75,000)

Description: *RCI-LC* proposes in-depth training over 18-months by developing a Learning Collaborative that will recruit practices to participate in on-going quality improvement strategies to improve the delivery of primary care based mental health services.

Principal Investigator: Danielle Laraque, MD

Source: American Red Cross

Title: *Reaching Children Initiative-Learning Collaborative (RCI-LC): A Tri-State Children's Mental Health Collaborative*
Funding Period: July 1, 2006-June 30, 2007 (\$225,000)
Description: *RCI-LC* proposes in-depth training over 18-months by developing a Learning Collaborative that will recruit practices to participate in on-going quality improvement strategies to improve the delivery of primary care based mental health services.

1 D55HP05155-01-00 Principal Investigator: Danielle Laraque, MD
Source: HRSA/Bureau of Health Professions
Title: Faculty Development in Primary Care Program
Funding Period: 2005-2008; \$1,256,646/3 years
Description: The major goal of this training grant is to train generalist specialists in pediatrics and internal medicine with a focus in underserved communities and thematic emphasis on Healthy People 2010 objectives (mental health, child abuse, respiratory diseases such as asthma, nutrition and overweight, environmental health). Focus on training on quality improvement and safety is emphasized, as well as, cultural competence.

C023677 Principal Investigator: Danielle Laraque, MD
Source: New York State Office of Children & Family Services (Supplement)
Title: Multidisciplinary Teams Investigation
Funding Period: April 1, 2006-9/30/2007 (\$145,200)
Description: The major goal is programmatic support to achieve the standards of a full CAC (Child Advocacy Center)

Co-Investigator (Sania Perez, MD –PI -mentored)
Source: National Children's Alliance
Title: The Child & Family Support Program
Funding Period: November 2005-October 2006 (\$50,000)
Description: The major goal is programmatic support to achieve the standards of a full CAC (Child Advocacy Center)

C023677 Principal Investigator: Danielle Laraque, MD
Source: New York State Office of Children & Family Services (Supplement)
Title: Multidisciplinary Teams Investigation
Funding Period: August 2005-March 2006 (\$20,000)
Description: The major goal is programmatic support to achieve the standards of a full CAC (Child Advocacy Center)

Principal Investigator: Danielle Laraque, MD and Frederick Suchy, MD
Recipient Organization: Mount Sinai School of Medicine
Source: NYS Department of Health
Title: MSSM Partnership for Children with Special Health Care Needs: Care Coordination Project
Funding Period: July 1, 2005-June 30, 2007
Amount: \$200,000.00

Description: The major goal is implementing and assessing the impact of a care coordination project for children with asthma and hematologic/oncologic disorders.

Principal Investigator: Danielle Laraque, MD

Recipient Organization: American Academy of Pediatrics

Source: September 11 Children's Fund

Title: Feelings Need Check Ups Too

Funding Period: September 2005-July 2006

Amount: \$220,000.00/2 yrs

Description: The major goal is dissemination of the educational CD-ROM with a new toolkit to physicians in the Washington DC and Pennsylvania areas as well as family physicians, school nurses, and the military.

Principal Investigator: Danielle Laraque, MD

Source: American Red Cross

Title: *Reaching Children Initiative: Post 9/11 through Primary Care Clinician Training in Mental Health.*

Funding Period: July 1, 2005-June 30, 2006 Amount: \$250,000

Description: The major goal is the implementation and quantitative evaluation of a tri-state training program aimed at improving physician knowledge and skills in the detection and management of trauma-related mental conditions (PTSD, depression, anxiety and bereavement-related)

Principal Investigator: Danielle Laraque, MD

Source: American Academy of Pediatrics

Title: Healthy People 2010: Mental Health NY3-CPAP (Child Psychiatry Access Project)

Funding Period: 07/01/05-05/31/07 Amount: \$20,000

Description: The major goal is feasibility testing of a web-based child psychiatry project in support of the identification and management of children's mental health issues in primary care settings.

Principal Investigator: Danielle Laraque, MD

Recipient Organization: American Academy of Pediatrics

Source: September 11th Children's Fund at the National Philanthropic Trust

Title: Addressing the Mental Health Needs of Children in response to September 11th and other catastrophic events: An educational resource for pediatricians -Dissemination

Funding Period: December 2004 \$51,785

Description: The major goal is dissemination of the educational CD-ROM to physicians in the Washington DC and Pennsylvania areas as well as family physicians and school nurses.

Principal Investigators: Gary Butts, MD and Danielle Laraque, MD

Source: Golden Family

Title: Golden Family Community Pediatrics Award Program

Funding: indefinite \$100,000 to award two, \$2500 per year to medical students to plan and implement a community pediatrics project

Description: The major goal is to support medical students through mentorship to plan and implement a community pediatrics research or program project

C023677 Principal Investigator: Danielle Laraque, MD
Source: New York State Office of Children & Family Services (Supplement)
Title: Multidisciplinary Teams Investigation
Funding Period: April 2004 through July 2005 (\$23,160)
Description: The major goal is programmatic support to achieve the standards of a full CAC (Child Advocacy Center)

C023677 Principal Investigator: Danielle Laraque, MD
Source: New York State Office of Children & Family Services
Title: Multidisciplinary Teams Investigation
Funding Period: November 1, 2003 through March 31, 2005 (\$96,584)
Description: The major goal is programmatic support to achieve the standards of a full CAC (Child Advocacy Center)

Principal Investigator: Danielle Laraque, MD
Recipient Organization: American Academy of Pediatrics
Source: September 11th Children's Fund at the National Philanthropic Trust
Title: Addressing the Mental Health Needs of Children in response to September 11th and other catastrophic events: An educational resource for pediatricians
Funding Period: August 2003-June 2004 (\$298,940)
Description: The major goal is the creation of a case-based, interactive educational tool to aid primary care physician assessment of children's trauma-related symptoms.

Principal Investigator: Danielle Laraque, MD
Source: HRSA/Bureau of Health Professions
Title: Faculty Development in Primary Care Program
Funding Period: 2002-2003 Year 1 (\$271,032); Year 2 2003-2004 \$391,088); Year 3 2004-2005 (\$531,330); Total 3 year budget \$ 1,193,450
Description: The major goal of this training grant is to train generalist specialists in pediatrics and internal medicine with a focus in underserved communities and thematic emphasis on Healthy People 2010 objectives (mental health, respiratory diseases such as asthma, nutrition and overweight, environmental health)

Principal Investigator: Danielle Laraque, MD
Source: HRSA (Health Resources & Services Administration)
Title: Healthy Tomorrows Partnership for Children. Mount Sinai Child & Family Support Program: A Focus on Mental Health
Funding Period: 3/1/2002-2/28/2007 Total \$249,890/5yr
Description: The major goal is the integration of a mental health specialist in the evaluation of children with suspected abuse.

Principal Investigator: Danielle Laraque, MD
Source: NYS DOH
Title: Pediatric School Based Health Center
Funding Period: July 2001-June 2006; Total yearly operating budget varied each year exceeded \$1M per year all NYS funding sources.

Description: The major goal is the support of comprehensive school-based primary care services in the East Harlem community.

Co-Principal Investigator: Danielle Laraque, MD

Source: NYS DOH

Title: Pediatric School Based Health Center: Youth Tobacco Use Prevention and Cessation

Funding Period: July 2001-June 2006 \$50,000/yr

Description: The major goal is to implement a best practice tobacco prevention/cessation program for adolescents in Mount Sinai SBHC.

Principal Investigators: Danielle Laraque, MD and Claude Chemtob, PhD

Source: The Klingenstein Third Generation Foundation

Title: It takes a village to heal a child: The Mount Sinai Child & Family Support Program

Funding Period: June 2001-May 2005 \$50,000.00

Description: The major goal is the integration of mental health assessment in the evaluation of children with suspected abuse.

Co-Investigator and Site Principal Investigator: Danielle Laraque, MD

Current Grants (Most recent past grants 2012-2015 prior to present position)

Early Intervention Contract (WRI)
Principal Investigator: Laraque D.
Title: Early Intervention and MMC Project
Budget and Period: \$108,090/6months Jan1, 2014-June 30, 2014; July1, 2014-June 30, 2015
(\$216,180); Total contract, \$324,270 for the 18 month period.
Description: Maimonides Medical Center (MMC) entered into an agreement to provide services
to the Division of Mental Hygiene with the following deliverables in two time periods. Phase I
of the EI-MMC Project which engaged the Maimonides Medical Center research team to
develop a set of research areas and questions to be considered for long-term clinical projects,

possible grant funding, and/or more rigorous research applications. Additionally, the effort was to identify possible evaluation and research measures to be applied to current and future programmatic activities. The development of an EI algorithm, physician guide was an additional component to the contract.

AmeriCares Foundation, Inc.

Project: USA: NY - Pediatric Disaster Mental Health Intervention (PDMHI)

Grant #: 900-13HT-511

Principal Investigators: D. Laraque and G. Foltin

Budget: \$174,570.

Budget Period: 2013-2014

Description: To improve the delivery system of post-disaster mental health services to targeted child and adolescent victims of Hurricane Sandy using an evidenced informed educational intervention.

Friends of Children Grant: American Academy of Pediatrics

Principal Investigator: District II Chair - Laraque

Responding to the Needs of Pediatricians following Hurricane Sandy.

Budget: \$44, 650

Budget Period: 2013-2014

Description: To develop the network of resources to support pediatricians responding to needs of children and adolescents in the wake of Hurricane Sandy in concert with an educational intervention.

Early Intervention Contract (WRI)

Principal Investigator: Laraque D.

Title: Early Intervention and MMC Project

Budget: \$60,000

Budget Period: Jan-June 2013

Description: Maimonides Medical Center (MMC) entered into an agreement to provide services to the Division of Mental Hygiene with the following deliverables in two time periods. Phase I of the EI-MMC Project which engaged the Maimonides Medical Center research team to develop a set of research areas and questions to be considered for long-term clinical projects, possible grant funding, and/or more rigorous research applications. Additionally, the effort was to identify possible evaluation and research measures to be applied to current and future programmatic activities. The development of an EI algorithm, physician guide was an additional component to the contract.

R-44 NICHD in response to PA-11-096- PHS 2011-02 Omnibus Solicitation of the NIH, CDC, FDA and ACF for Small Business Innovation Research Grant Applications (Parent SBIR [R43/R44])

Principal Investigators: Laraque D. and Lucy Bruell

Title: Stop, Look and Listen: Separating Fact from Fiction in Evaluation Cases of Child Abuse: An Interactive Learning tool for Pediatricians. Phase II.

Budget Period: Aug 1, 2012- July 31, 2014; (\$934,666); No cost extension August 1, 2014-July 30, 2015.

Description: Phase II of Stop, Look and Listen expands on the work done in Phase I by expanding on the number of cases to round out the understanding of child physical abuse and that objective, evidence-based, culturally sensitive, interdisciplinary assessments will lead to improvement in the process of reporting of abuse as well as accuracy in the suspicion of abuse. A preliminary randomized control study of senior pediatric residents and practicing pediatricians to evaluate whether *SLL* meets its training identified training goals will also be conducted.

Maimonides Medical Center Research and Development Foundation Grant.

Co-Investigator; (Mary Rojas, PhD PI)

Title: Do Implicit Biases Affect Providers' Child Abuse Reporting?

Two years; \$ 85,012

Budget Period: 2011-2014

Description: The study consists of two sub-studies using qualitative and quantitative methods. The first sub-study uses a randomized experimental design to examine whether providers are more likely to suspect and report child abuse based on race of the child/family. Using an online tool, providers rate their level of suspicion of abuse and likelihood of reporting after reading 8-12 vignettes describing child injuries cases. Accuracy and racial preferences will be measured. The second sub-study consists of focus groups with providers to identify the reasons for disparities in reporting after they have completed the vignettes.

HRSA (MCHB)

Principal Investigators: Laraque D.

Title: New York (NY) Collaborative Office Rounds (COR): Reaching Children and Teens.

\$75,000/5 years

Budget Period: June 2011-June 2016

Description: Collaborative Office Rounds processes are used to augment primary care clinicians' comfort with management of mental issues in children presenting in their practices.

R-43 NICHD (funded) in response to RFA-OD-09-009/The SBIR Small Business Catalyst Award for Accelerating Innovative Research, Trans-NIH Recovery Act Research Support.

Principal Investigators: Laraque D and Lucy Bruell

Title: Stop, Look and Listen: Separating Fact from Fiction in Evaluation Cases of Child Abuse: An Interactive Learning tool for Pediatricians.

Budget Period: April 2010-March 2011 (\$200,000)

Description: Phase I of *Stop, Look and Listen (SLL)* involves the development of an online interactive teaching tool designed to improve physicians' confidence and accuracy in identifying and reporting cases suspicious for child physical abuse

Collaborating Investigator – (PI EW Jabs, LD Richardson, S. Sanderson)

Institute for Personalized Medicine (IPM) Seed Grant Program

Title: Project ENGAGE – (Evaluating Information Needs to Generate Community Engagement and Genomics Education)

Charles Bronfman Institute of Personalized Medicine at MSSM (Year 1 \$100,000)

Budget period: September 1, 2009-August 31, 2010

Description: This project aims to engage the local community in genomics through a community consultation process (initially focusing on diabetes)

Empire Clinical Research Investigator Award

Principal Investigator: Danielle Laraque, MD

Title: Multiple Family Group (MFG) service delivery strategy to reduce urban youth oppositional and conduct problems.

Budget Period: July 1, 2009-2011 (\$150,000/2yrs)

Description: The study will test the impact of the MFG on child mental health and on various parent and family-level outcomes. The overall goal of the fellowship is to train a general academic pediatric clinician-researcher with special emphasis on children's mental health (MH) services research. The research fellow (under direct mentorship) will be immersed in all aspects of the described project, from assessment to delivery to examination of the implementation process and outcomes. Validation of a primary care functional assessment tool for youth with disruptive behaviors will be a specific sub-goal of this project.

New York Community Trust

Principal Investigator: Danielle Laraque

Title: Reaching Children Initiative: Web-based Clinical Decision Support Network for Pediatric Primary Care.

Budget Period: 10/2008-9/2010 (\$150,000)

Description: To integrate web-based decision support system into pediatric primary care.

1R21-HD057394-01

Co-investigator: Danielle Laraque (PI Katherine Loeb)

Title: Parent-Based Treatment for Pediatric Overweight (PO)

Budget Period: 07/01/2008-06/30/10

Description: To develop a parent focused intervention for PO that *addresses the unique needs of adolescents* and modifies parenting practices

Principal Investigator: Danielle Laraque, MD

Source: NYS DOH

Title: Pediatric School Based Health Center

Funding Period: July 2007-June 2012 Total operating budget varies each year: 2008-9:

\$1,235,840 all sources of NYS funding

Description: The major goal is the support of comprehensive school-based primary care services in the East Harlem community.

Co-Director: Laraque, Danielle (PI: Lawrence Kleinman; other Co-PI Thomas McGinn)

Research Training Program in Primary Care and Health Policy

T32HP1062

Project Period: 7/08-6/11; \$305,454/year 1

Description: The Mount Sinai Primary Care Fellowship in Health Services and Health Policy Research (MSPCF) is dedicated to recruiting a diverse cadre of talented post doctoral individuals and to developing them into leaders in primary care research for the United States.

Co-Director; Co-Principal Investigator for General and Community Pediatrics (PI: Philip Landrigan; other Co-PI David Savitz)

Research Training Program in Environmental Pediatrics

1T32 HD049311-01A1

Project Period: 4/1/07 - 3/31/12 (NICHD)

Direct Costs for Initial Budget Period: \$168,302

Description: To establish a three-year research fellowship program in environmental pediatrics at the Mount Sinai School of Medicine. The goal is to provide clinically trained pediatricians with research training in a clinical context to enable them to become clinician-scientists and future academic leaders in environmental pediatrics.

Educational Philosophy:

I have been teaching medical students, residents, fellows, and interdisciplinary trainees inclusive of master, doctoral and postdoctoral trainees, and faculty for over thirty years. My goal in teaching is to invite a spirit of inquiry, which invites innovative thought and creative interaction with the purpose of improving clinical care and translating new knowledge to practice. Attention to detail, based on a strong fund of knowledge, supported by self-directed learning, is a core value. This is then bolstered by the interaction brought about by team-based learning that instills a yearning for an intellectual and inquisitive approach to clinical care, education, and research. This approach is also applicable to advocacy efforts that can be based on theory and evidence-based approaches. Service-learning is an example of an approach that is contextually relevant and promotes the application of sound community-based approaches. In addition, community-based participatory research is integral to service learning. It is essential for trainees and life-long learners to understand the ever-changing medical literature, to critique it and specifically apply it to different patient populations. These tenets have served me well in all venues – whether in the 80-90s in Central Harlem, Upper East Side/East Harlem (2000) or Brooklyn,

NY (2010-2016) and now at the State University of New York, Upstate Medical University (2016-present). At my newest leadership level as President of SUNY Upstate Medical University in Syracuse, these same principles are applied to an academic mission to achieve health equity.

Teaching Experience

TEACHING ACTIVITIES (See also Presentations for national and international teaching conferences)

1986-2000 Preceptor for Health Training Research Program students, New York City Department of Health- (at least one student per year, usually undergraduate at times graduate students).

1986-2000 Lecturer to physician-assistants yearly; subject lead toxicity. 1 hour.

1986-2000 Harlem Hospital Grand Rounds with CME credits awarded (yearly 3-5 lectures, 1 hour) not included in presentations. Grand Rounds also presented to the Department of Obstetrics & Gynecology. Topics covered include: Lead toxicity, pediatric gynecology, sexual abuse, child abuse, multidisciplinary team approach, adolescent health risk behaviors (including injury, sexual behavior), injury prevention, anticipatory guidance, health promotion;

1986-2000 Columbia University at Harlem Hospital Pediatric Resident Teaching (clinic and inpatient ward). Attending physician.

1986-2000 Columbia University at Harlem Hospital -Third year medical student teaching weekly in Pediatric clinic.

August 25, 1992

Panelist- Columbia University School of Medicine- Introduction to Clinical Medicine-Robert Wood Johnson Grant - Discussion topic- Adolescent pregnancy.

Summer 1992 Preceptor - Sophie Davis Medical School placement at Harlem Hospital.

March 4, 1993 Health Promotion/Disease Prevention Seminar Series and co-sponsored by the Division of Socio-medical Sciences at Columbia University's School of Public Health and the Harlem Center for Health Promotion and Disease Prevention at Harlem Hospital-Adolescent Pregnancy - -Hammer Health Science Center. (1 hour)

March 25,
1993

Child Health Course/Population & Family/ Public Health -Epidemiology of Pediatric Injury - -lecture series

November 4, 1993

Adolescent Outreach Program -Strategies for reducing adolescent high risk behaviors. Sophie-Davis Medical School, City University of New York.

- 1994-2000 First year medical student primary care clerkship rotation through the Harlem Hospital Family Support Clinic. (1, 3hour session/week)
- March 31 1994
Community Approaches to Injury Prevention -Maternal and Child Health Seminar Series. Columbia University.
- December 1995-
September 2009
Fourth year medical student elective - course preceptor. 1 month/year.
- 1994-1995 National Medical Association, National Minority Mentor Recruitment Network-Mentor
- 1995-1997 Faculty -Clinical Practice I: Health related behavior. Columbia University School of Medicine course. (1 hour)
- 1998-2000 Bright Futures Health Promotion –Facilitated monthly resident seminars at Harlem Hospital (1 hour sessions)
- July 21, 2000 Health Promotion: From Theory to Practice. Grand Rounds, Mount Sinai Medical Center, Department of Pediatrics. (1 hour)
- October 27th – December 15th, 2000
Molecules and Cells small group discussion –Clinical Co-facilitator; Mount Sinai School of Medicine. (1, 3 hour session/week)
- February 15, 2001
Youth Violence and Minority Communities – Mount Sinai Hospital; sponsored by the African-American Cultural Committee. Speaker, Attending physician.
- April 12, 2001
A Comprehensive Approach to Child Abuse: Planning for Prevention, Detection and Treatment. Grand Rounds, Mount Sinai Medical Center. (1 hour)
- April 30, 2001
Workshop at the Pediatric Academic Societies’ Annual Meeting. Health Care Delivery Models: Key Elements of Success. D. Laraque, J. Cox, M. LoFrumento, T. Tonniges, J. Cox, K. Capitulo, K. Felix-Aaron. , Baltimore, Maryland. (3hours)
- 2000-2010 Teaching Attending – Mount Sinai Inpatient Ward- yearly, 3days/week/4 weeks.
- 2001-2007 Pediatric Research Day Steering Committee Member. (Organizer)
- 2001-2004 Art and Science of Medicine Course II. Mount Sinai School of Medicine. (3 hours/week)

- October 16, 2001
 Today's Adolescent: Solving Old Problems Dealing with New Ones. Organized by the American Academy of Pediatrics, NY Chapter 3, D. Laraque President. . Crown Plaza, White Plains, NY. (CME, speaker)
- October 18, 2001
 Annual Conference on Domestic Violence: Violence Hurts: Family Violence. Mount Sinai School of Medicine. (3 hours)
- February 25, 2002
 Mount Sinai Medical Center, Child & Family Support Program. *Beyond the Looking Glass Conference on Child Maltreatment. 1 hour.*
- May 4, 2002 Workshop: Open Access Appointment Scheduling: The Cure for the Ailing Pediatric Practice? J. Brown, D. Laraque, J. Cox, G. Randolph. Pediatric Academic Societies Annual Meeting, Baltimore, Maryland. 3 hours
- May 4, 2002 Educational Seminar Leader: Minority Faculty Development. Pediatric Academic Societies Annual Meeting, Baltimore, Maryland. (3 hours)
- October 19-23, 2002
 Providing Health Care Services to Underserved Populations: Immigrant, Homeless, Refugees and Migrant Children. Co-leader. American Academy of Pediatrics' National Conference and Exhibition Meeting, Boston.
- 2003 Workshop: Open/Advanced Access II: Improving Patient Access and Care While Increasing Physician and Patient Satisfaction. J.A. Swanson, G. Randolph, J. Brown, D. Laraque. Pediatric Academic Societies Annual Meeting, Baltimore, Maryland. 3 hours
- May 3-7, 2003
 Educational Workshop Leader: Minority Faculty Development. Pediatric Academic Societies Annual Meeting, Seattle. 3 hours
- 2002-2010 Child & Family Support Program – residents in ambulatory block rotation. 3 hours/week.
- October 8, 2002
 Violence Hurts Conference –Panelist – “The Role of Mental Health Screening in the Pediatric Primary Care Setting”: (Organizer)
- October 28, 2002
 Panelist in AMSA's Mount Sinai Chapter National Primary Care Week,
- January 2003 Poisonings in Childhood, Grand Rounds St. Vincent's Hospital at Staten Island (1 hour)
- October 29, 2002

Urban Health Initiative, Medical Student Forum, New York Academy of Medicine. One year post 9/11: Addressing the Needs of Affected Communities.

January 8, 2003

Children's Health Forum. New York Academy of Medicine. Children's Health Needs Post September 11 Survey: Preliminary Findings. .

March 7, 2003 Ambulatory Pediatric Association Region II Annual Meeting: Keynote speaker: Health Promotion: Reaching the Healthy People 2010 Objectives, New York

April 4-6, 2003

Symposium Organizer- American Academy of Pediatrics, Violence Prevention Symposium-

April 8, 2003 Children's Health Needs Post September 11 Survey: Preliminary Results. Faculty Research Seminar.

September 23, 2003

Children's Health Forum Speaker. Disaster Planning After 9/11, New York, NY.

October 20, 2003

Keynote Speaker. AMSA Primary Care Week. *Primary Care: Looking to the Future.* . Mount Sinai School of Medicine, NY.

January 22, 2004

Mount Sinai Pediatric Grand Rounds – Review of Child Maltreatment Case Referrals, Hospitalized Children: *A Focus on Neuroimaging.* (1 hour)

April 16-18, 2004

HELP (Handgun Epidemic Lowering Plan) 8th Conference, Planning Committee Member, Speaker: Opening Remarks and Workshop *Reducing Child and Youth Access to Guns.*

2002-2004

Ambulatory Pediatric Association (APA)'s Educational Guidelines Revision Project, grant award to the APA by Josiah Macy, Jr., Foundation. (Project Director: Diane Kittredge). Contributor to APA Educational Guidelines for Pediatric Residency Section 3, Middle Childhood. Available at Ambulatory Pediatric Association website, www.ambpeds.org/guidelines.

May 2, 2004

Educational Workshop Leader: Minority Faculty Development: *Year Three.* Pediatric Academic Societies Annual Meeting, San Francisco, CA.

October 2004-May 2005

Course Co-Director: Survey Design, Questionnaire Development and Survey Analysis. Course in MPH program. Course, Mount Sinai School of Medicine. (3 trimesters, 1hour/week)

September 2004- May 2005.

Course Co-Director: Clinical Research Design, Statistics and Academic Life Course. Specialty Fellows course for compliance with American Board of Pediatrics. Mount Sinai School of Medicine –(no course number); (1 hour/week; 3 trimesters)

2004-2005 Key Faculty - MCO800 Seminar in Applied Clinical Epidemiology & Health Services Research. Mount Sinai Primary Care Clinician-Research Fellowship/ MPH course. (1.5 hours/bi-weekly; 3 credits; 3 trimesters)

February 27-28, 2005

United Nations Opening Ceremony – Strengthening Health Care Response to Domestic Violence. Plenary Panel – Elmhurst Hospital. –cancelled.

March 16-17, 2005

Visiting Professor – UMDNJ – Robert Wood Johnson Medical School. A Conversation about Faculty Career Development. Grand Rounds: Psychosocial Issues in Primary Care. (2 days)

May 15, 2005

Educational Workshop Leader. Minority Faculty Development: Individual Academic Plans Helping Focus Career Paths. Laraque D, Dennery P, Mendoza F. Workshop, Pediatric Academic Societies Meeting. Washington, D.C. (3 hours)

May 14, 2005 Division Director's Special Interest Group Panel; Danielle Laraque, Christian Derauf, Tina Cheng. *How Do We Keep the (Three-Legged) Stool Standing? Balancing our missions of clinical care, education, and research.* Pediatric Academic Societies Meeting. Washington, D.C. (2 hours)

October 7, 2005

Connecting for Children's Sake. Integrating Physical and Mental Health Care in the Medical Home. American Academy of Pediatrics, Pediatrics for the 21st Century (Peds-21). Focus Group Leader, Clinician Support. (4 hours)

2005-2006 Course Director: Reaching Children Initiative, Mount Sinai School of Medicine. Tri-state training of pediatricians in children's mental health. (American Red Cross grant); Contact hours -8.5hours; 8 full days total.

November 18, 2005

Child Health Disparities: An Overview. Grand Rounds Speaker – The Center for Multicultural and Community Affairs, Mount Sinai School of Medicine.

April 30, 2006 (Done yearly since 2002)

Individual Academic Plans: Valuing and Supporting Diversity: (Workshop Leader) Laraque, D, Dennery PA, Mendoza FS, Cora-Bramble, D, Konopasek, L, Niebuhr, V. Workshop #1300. Pediatric Academic Societies, San Francisco, CA. (3 hours)

- April 30, 2006 Panel Discussion: APA Health Care Delivery and Mental Health at PAS. Pediatric Academic Societies, San Francisco, CA. (2 hours)
- May 2, 2006 Panel Discussion: Women in Medicine. Pediatric Academic Societies, San Francisco, CA. (2hours)
- 2006-2010 Mount Sinai School of Medicine, Pediatric Specialty Fellows Course: IRB –Historical Perspective and Ethical Considerations. (1 hour)
- May 26, 2006
Mount Sinai School of Medicine, Pediatric Specialty Fellows Course: –Academic Communication. (1 hour)
- June 5, 2006
Culture & Illness Course- Masters in Public Health, Mount Sinai School of Medicine. Research Ethics in Vulnerable Populations. (2 hours)
- July 1, 2006-present
Neuroscience Education Institute- faculty of Mini-fellowship on Psychopharmacology. . Faculty, contact hours 3 days; at least yearly.
- February 12, 2007
CERTS – Youth Aggression. Chair of the Panel on Family Engagement. Dallas, Texas. (3 hours)
- February 11-13, 2009
National Leadership Conference in General Pediatrics. Sponsored by the Academic Pediatric Association. , New Orleans, LA. Workshop A/B: Developing Research Capacity, presented by Peter Szilagyi and Danielle Laraque. (2 -2 hours)
- February 11-13, 2009
National Leadership Conference in General Pediatrics. Sponsored by the Academic Pediatric Association. , New Orleans, LA. Diversity in Academic Pediatrics. Panelist. (2 hours)
- 2002-2010 Founder and course faculty- Seminar in Applied Clinical Epidemiology and health service research. Mount Sinai Department of Community & Preventive Medicine. (3 credits/year (starting 2005), 3 semesters/year, 1 hour session/bi-weekly)
2002-2005 Course Director, Primary Care Clinician Research Fellowship.
2005-2010 Course Key Faculty
- 2008-present Founder and course director: Seminar in Applied Pediatric Health Services Research. Mount Sinai Department of Community & Preventive Medicine. (non-credit, fellowship course, 1 hour session/bi-weekly)
- September 21-22, 2010
APA-APPD Leadership Conference, Faculty; Virginia

The Dynamics of Change
Peer-Peer Mentoring, Facilitator

April 29, 2011

Global Health Summit
Anschutz Medical Campus, Children's Hospital of Denver
Academic Pediatric Association Panelist

April 30, 2011

Health Care Reform: Are we making Progress for America's Children (Hot Topic)
Chair: Danielle Laraque and Steve Berman
Presented at the Pediatric Academic Societies and Asian Society for Pediatric Research
Denver, Colorado, USA

April 30, 2011

Global Health, Part II: PAS State of the Art Plenary
Chair: Danielle Laraque and Judith Palfrey
Presented at the Pediatric Academic Societies and Asian Society for Pediatric Research
Denver, Colorado, USA

May 1, 2011

Race in Medicine/Women in Medicine Special Interest Group, Panelist
Pediatric Academic Societies Meeting
Colorado Convention Center

May 3, 2011

Culture, Ethnicity & Healthcare, Special Interest Group
Diversity in Academic Medicine
Benefits and Challenges across the Continuum
Surendra Varma, Danielle Laraque, Carol Berkowitz -Presenters

April 17, 2012

Teaching Awards Received

2010 **Job Lewis Smith Award** – This national award is given for outstanding service in community pediatrics. It is made for outstanding community service to children through teaching, public service, and innovations in patterns of care.

Faculty for the REACH Institute: National training in psychopharmacology and mental health assessment. Faculty (20006-2012) and now Advisor. Mean score as faculty exceeded 4 consistently on a Likert scale of 1-5 with 5 being excellent. See website and <http://www.thereachinstitute.org/files/documents/reach-trains-1000-doctors-12-10-12.pdf>.

Mentoring of Graduate Students, Residents, Post-Doctoral Fellows in Research

TRAINING RECORD

(Faculty (junior and senior), medical students, other health professionals, residents, fellows mentored in current role as President, not listed. Fellows, Residents and Medical students taught as part of continuity practice, inpatient ward or other clinical services are **not** listed individually. Medical students at Harlem, MSSM and Maimonides informally mentored not listed. Mentees at Harlem Hospital not listed, but included two residents per year for fourteen years and one medical student per month. Listed are research fellows, residents involved in research and other child health professionals involved in clinical research, and those I am currently mentoring). Most mentored faculty **not** listed.

Name	Level of Trainees	Role in training/Dates	Trainee’s Current Position
Virginia Young, MLS	Graduate level	President, Mentor	Presidential Librarian
Joseph L. Wright, MD, MPH	Professor and Chair Department of Pediatrics and Child Health Howard University College of Medicine	Mentor through APS	Professor and Chair
Suzette Brown, MD, MPH	Faculty Mentored to apply and receive the HRSA/MCH/AAP Healthy Partnership for Children’s Grant (2015)	Chair	Assistant Professor of Clinical Pediatrics
Anastasia Feifer, MD	Fellow	Fellowship Director, Child Abuse Pediatrics	Fellow (ACGME)

Mandy O'Hara, MD, MPH	Fellow	Fellowship Director, Child Abuse Pediatrics	Assistant Professor of Clinical Pediatrics, Mount Sinai School of Medicine (2011-2014) ACGME MPH from Columbia University received June 2014 as part of training in CAP;
Robert Accordino	3 rd /4 th year medical student	2009/Mentor on Elective	4 th year medical student MSSM intern 2011
Sonia Desikan, MD	General Academic Pediatrics and MPH	2009-2010	Fellow
Jeanhee Park, MD	General Academic Pediatrics and MPH	2009-2010	Fellow
Perry Sheffield, MD	Environmental Fellow and MPH	2007-present Mentor	Fellow
Angkana Roy, MD	General Academic Pediatrics Fellow/Environmental Fellow and MPH	2008-present Academic Advisor	Fellow
Asha Willis, MD	HRSA Clinician-Research Fellow And MPH	2007-present Academic and Thesis Advisor	Fellow Faculty: Maimonides Infants and Children's Hospital of Brooklyn, 2010
Prina Amin, MD	HRSA Clinician-Research Fellow and MPH	2006-present Academic and Thesis Advisor	Fellow Instructor at Cornell/Weill Child Abuse Boarded Boarded in CAP
Jessica Petros, MD	Medicine/Pediatrics resident	2006-present	Resident
Max Gomez	Sinai School of Medicine – 4 th year Medical Student	2005-06 Research Mentor	Resident
Nita Vangeepuram, MD	Fellow, General Academic Pediatrics and Environmental Fellow and MPH	2005-08 Academic Advisor	Faculty in Pediatrics and Community & Preventive Medicine
Laura Englander	Post-baccalaureate student, Research Assistant	2004-05 Research	Medical Student

		Mentor	
Kemesha Delisser	2 nd year Medical Student –Mount Sinai School of Medicine (CMCA MORE Program)	2004-8 Academic mentor	Resident
Maan Dela-Cruz, MPH	Research Coordinator and Graduate Student at Mailman School of Public Health	2003-present Thesis Advisor	Grant Administrator
Alexander Tzavaras	4 th year medical student, MSSM – Special Matriculation Status for Research	2003-04 Research Mentor	Resident Faculty, Montefiore Hospital
Natalie Davis, MD	Fellow, General Academic Pediatrics	2003-05 General Mentor	Faculty
Richard Lyncook, MD	Fellow, (MED/PEDS) General Pediatric & Medicine Academic HRSA Faculty Development in Primary Care Fellowship and MPH	2003-05 General Mentor	Department of Health
Yue-Yung Hu	Research Assistant. Community Health Project	2004-2007 Research Mentor	Medical Student
Sania Perez, MD, MS	Medical Director – Child & Family Support Program	2002-2008 General Mentor	Academic Faculty
Anabel Bejarano, PhD	Mount Sinai, postdoctoral fellow	2002-04 Research Mentor	Academic Faculty
Janine Rethy, MD	Pediatric Resident	2002 Research Mentor	Academic Faculty
Evelyn Berger, MD	General Academic Pediatric Fellow	2004-07 Academic and Thesis Advisor	Academic Faculty Columbia University,
Amy DeMattia, MD	HRSA Clinician-Research Fellow, MSSM Fellow and MPH	2002-05 Academic and Thesis Advisor	Clinical Faculty MSSM
James Celestin	Mount Sinai, Medical student mentee	2001-5 General Mentor	Resident
Jeffrey Miller	Mount Sinai, Medical student advisor	2001-02 Research Mentor	Resident
Eric Shelov	Research Assistant – Community Health	2001-02	Resident, CHOP

	Project	Research Mentor	
Harry Moskowitz, MD, MS	Faculty research mentee	2001-2003 Research Mentor	Private Practice
Shuba Kamath, MD	<ul style="list-style-type: none"> • Mount Sinai Pediatric Resident • HRSA Faculty Development in Primary Care Fellowship 	2001-06 2003-06 Academic and Thesis Advisor	Academic Faculty Tufts Medical School
Cindy Wong	Mount Sinai Medical Student 4 th year Elective	8/01-9/01 Mentor	Resident, unclear now
Ingrid Walker-Descartes, MD	<ul style="list-style-type: none"> • Rochester Medical Student – Research Assistant • Pediatric Resident Methodist Hospital; General Academic Pediatric Fellow • MPH 	1999-2001 2004-07 Academic and Research Advisor	Academic Faculty Maimonides Infants and Children's Hospital of Brooklyn Board Eligible CAP
Deborah Steinbaum, MD	<ul style="list-style-type: none"> • Mount Sinai Mentee, Piloting of Advocacy rotation • (Academic Advisor) HRSA Clinician-Research Fellow Development in Primary Care Fellowship • MPH • Research Faculty 	10/2000 2002-05 2005-present Academic and Thesis Advisor Research Mentor	Academic Faculty Boarded in CAP (2011)
Pamela Brown-Peterside, PhD	<ul style="list-style-type: none"> • Graduate Student at Socio-medical Sciences -Columbia University • Current position: Research Associate on HIV vaccine trial. New York Blood Center 	1990-95 Research Mentor	Research Associate
Lisa Eiland	<ul style="list-style-type: none"> • Third year and fourth year of medical school, clerkship and off-site thesis preceptor - Yale Medical student • Accepted to Babies and Children's Pediatric Residency Program, Columbia University; Neonatology Fellow, Cornell 	1998-2000 2006- Research Mentor	Resident
Nabeel Najib, MD	Pediatric Resident Harlem Hospital Center	1996 Research	Practice

		Mentor	
Shirin Madad	Student Health Research Training Program, NYC Department of Health (see publications)	1997 Research Mentor	Medical Health Research Associates (MHRA).
Juanita Guerra, PhD	current position psychologist for the Harlem Hospital Pediatric Resource Center, (license pending, year of supervision needed)	1999-2000 Mentor	Psychologist (Harlem Hospital)
Annelie Hartmann, PhD	current position psychologist for the Harlem Hospital Pediatric Resource Center (license pending, year of supervision needed)	1999-2000 Mentor	Psychologist (Harlem Hospital)
Bhavna Vaswani	Harlem Hospital, psychology student	1991-1993 Mentor	Graduate student completed
Vicky Borgia	Columbia University undergraduate	1992 Research Mentor	Don't know

Teaching Evaluations: (Most not kept over the years, but a sampling is presented below)

Most recent: Faculty for Pediatric Disaster Mental Health Initiative: Course Directors: Laraque, MD and George Foltin, MD (Americares Grant). THE PDMHI is patterned after the Reaching Children Initiative and the CAP-PC (Child and Adolescent in Primary Care) training which funds 5 medical centers in the model developed with assistance of D. Laraque, REACH, and the American Academy of Pediatrics. The training of the PDMHI is embedded in a disaster framework. (See also published articles from Laraque #50 in bibliography).

Below are two summary charts: The evaluation of Laraque, and summary evaluation of the course. Likert scale 5=Excellent 4= Very good 3=Good 2=Fair 1=Poor

	Quality of Presenter	Value to my Practice	
Danielle Laraque	<p>Mean: 4.75 Median: 5 Mode: 5 No Response: 4/12</p> <p>Mean: 4.58 Median: 5 Mode: 5 No Response: 13/56 (23.21%)</p>	<p>Mean: 4.80 Median: 5 Mode: 5 No Response: 7/12</p> <p>Mean: 4.61 Median: 5 Mode: 5 No Response: 28/56 (50%)</p>	

PDMHI Training Sessions Summary: Course Directors: D. Laraque and G. Foltin

Date of Presentation	Location	Number of Participants	Type of Participants	Presenters	Mean Overall Evaluation Score on Learning Objectives (1-5 scale)
May 22, 2013	Fort Hamilton Community Club	22	MDs – 11 RNs – 3 Social Workers – 3 Missing Information – 3 PhDs - 2	<p>Intro – George Foltin PFA – Victor Fornari Expectable Responses – Carmel Foley Common Presentations – Danielle Laraque Who is at Risk – David Kaye Working in a Disaster Zone – Michael Frogel Lessons Learned – Victor Fornari</p>	3.97

June 26, 2013	Dyker Beach Golf Course	31	RNs – 11 MDs – 9 Social Workers – 3 APRNs – 2 PhDs – 1 NP – 1 Paramedic – 1 Other – 1	Intro – Michael Frogel PFA – Peter D’Amico Expectable Responses – Carmel Foley Common Presentations – Diane Bloomfield Who is at Risk – David Kaye Working in a Disaster Zone – Michael Frogel Lessons Learned – Victor Fornari	4.14
September 11, 2013	Hofstra University Club	14	MDs – 13 Social Workers - 1	Intro ; Danielle Laraque PFA – Peter D’Amico Expectable Responses – Carmel Foley Common Presentations – Diane Bloomfield Who is at Risk – Rachel Zuckerbrot Working in a Disaster Zone – Michael Frogel Lessons Learned – Victor Fornari	4.49
October 7, 2013	Oklahoma	39	Social Workers - 20 Other - 8 MDs – 6 Residents - 2 RNs – 1 PAs - 2	Intro – Michael Frogel PFA – Victor Fornari Expectable Responses – Carmel Foley Common Presentations – Michael Frogel Who is at Risk – Carmel Foley Working in a Disaster Zone – Michael Frogel Lessons Learned – Victor Fornari	4.42
