The supervisor may be a credentialed house officer or faculty member; if the former, the responsible faculty member must be immediately available either on/off site (this is defined as Indirect Supervision depending on the time of day as is described below).
 - *Level 2A/Indirect Supervision*, defined as immediate on-site availability, is required of faculty between 7AM-4PM daily for housestaff clinical responsibilities and is required of senior housestaff 24 hours a day for PGY-1s. *Level 2B/Indirect Supervision*, defined as immediate availability from off-site faculty, is required of faculty between 4PM-7AM daily for housestaff clinical responsibilities.

Crouse ICU Policies

1. What About Overflow or Above-the-Cap?
 - a. Unless there is an urgent/emergent patient safety issue, the ACGME rules outlined above may not be violated under any circumstance.
 - b. Overflow patients are the responsibility of the on-service attendings (or other Crouse-appointed health-care providers); housestaff are not to be involved in the care of these patients unless team numbers allow for transfer to a housestaff-covered service or if an urgent/emergent issue requires immediate medical attention.
