

Rotation Request for Observership

Department of Medicine, Upstate Medical University

Please rank the following rotations in order of interest. Rotations will be assigned on a first come first served basis. To explain further, if we already have a maximum number of rotations on General Medicine, you will be assigned to one of the sub specialty divisions. We ask that you rank them all, as it is impossible to determine in advance how many requests we will have for each time period. Failure to rank all rotations will result in the rejection of your application. To rank, simply place numbers (1-10) on the line next to the; 1 would be your top choice and 10 would be your last.

The further in advance you apply, the more likely your top division choices will be able to accommodate you. If you are applying for more than one rotation, please specify if you would like them all in the same division or not. If you want them in different divisions, we will try to accommodate you according to your ranking preferences. Though your preferences are taken into consideration, there is no guarantee we can accommodate accordingly.

As a reminder, all rotations are assigned in two week blocks.

Please provide your dates of interest and whether or not you have flexibility on final dates.

*******Please note that once dates are confirmed, they cannot be changed without a new application and application fee.

Name of Applicant: _____
