

Postdoctoral Funding Opportunities

Government-Sponsored Opportunities

Federal Funding Opportunities

Grants.gov (<http://www.grants.gov/>) is a source of federal funding opportunities. Additional links for NIH, Department of Defense, and NSF are found below:

NIH-Wide Postdoctoral Funding Opportunities

NIH Parent Announcements are re-issued. Check the NIH Guide for Grants and Contracts(<http://grants.nih.gov/grants/guide/index.html>) for the most recent Parent Announcement funding opportunities. The following are FY 2012 Parent Announcements.

NRSA for Individual Postdoctoral Fellows, PA-11-113 (Parent F32)

Participating Institutes/Centers: NHLBI, NHGRI, NIA, NIAAA, NIAID, NIBIB, NICHD, NIDCD, NIDCR, NIDDK, NIDA, NIEHS, NIGMS, NIMH, NINDS, NINR, NCCAM

Deadlines: 4/8, 8/8, 12/8 annually; AIDS-related only: 1/7, 5/7, 9/7 annually

Description: to support promising fellowship applicants with the potential to become productive, independent investigators in scientific health-related research fields relevant to the mission of participating NIH institutes and centers.

Contact: <http://grants.nih.gov/grants/guide/pa-files/PA-11-113.html>

NRSA for Individual Senior Fellows, PA-11-114 (Parent F33)

Participating Institutes/Centers: NCI, NEI, NHLBI, NHGRI, NIA, NIAAA, NIAID, NIAMS, NICHD, NIDCD, NIDCR, NIEHS, NIGMS, NINDS, NINR

Deadlines: 4/8, 8/8, 12/8 annually; AIDS-related only: 1/7, 5/7, 9/7 annually

Description: to support experienced postdoctoral scientists who wish to make major changes in the direction of their research careers or who wish to broaden their scientific background by acquiring new research capabilities as independent investigators in research fields relevant to the mission of participating NIH institutes and centers. This announcement can be found at <http://grants.nih.gov/grants/guide/pa-files/PA-11-114.html>.

Contacts: http://grants.nih.gov/grants/guide/contacts/parent_F33.html

NIH/National Institute on Arthritis and Musculoskeletal and Skin Diseases

NRSA for Individual Postdoctoral Fellows, PA-11-075

Deadlines: PA expires 1/8/14; standard application submission deadlines apply

Description: to support promising applicants with the potential to become productive and successful independent research investigators in scientific health-related fields relevant to the programmatic interests of the NIAMS. This PA supports the F32 award mechanism and can be found at <http://grants.nih.gov/grants/guide/pa-files/PA-11-075.html>.

Contact: Dr. Amanda Taylor Boyce: boycea@mail.nih.gov

US Department of Defense/Congressionally Directed Medical Research Program

Each federal fiscal year (10/1-9/30), the US Congress appropriates funding to the Department of Defense for the Congressionally Directed Medical Research Program in multiple disease-centric areas. The CDMRP Funding Opportunities home page will list open funding opportunities:

<http://cdmrp.army.mil/funding/default.shtml>.

National Science Foundation

NSF offers funding for postdoctoral fellows. This is a link to a searchable list of all NSF Active Funding Opportunities http://www.nsf.gov/funding/pgm_list.jsp?sort=date.

Foundation-Sponsored Opportunities

Please check sponsor websites for current deadlines and guidelines.

Aging

2011 Ellison Medical Foundation/AFAR Postdoctoral Fellows in Aging Research Program

Sponsor: Ellison Medical Foundation & American Federal for Aging Research

Description: to encourage and further the careers of postdoctoral fellows with outstanding promise in the basic biological and biomedical sciences relevant to understanding aging processes and age-related diseases and disabilities.

Contact: <http://www.afar.org/research/funding/postdoc/>

ALS

Milton Safenowitz Post-Doctoral Fellowship for ALS Research

Sponsor: ALS Association

Description: to support postdoctoral research relevant to ALS.

Contact: <http://www.alsa.org/research/for-researchers/the-als-association-research.html>

Alzheimer's Disease

Postdoctoral Fellowship Award

Sponsor: American Health Assistance Foundation

Description: to support researchers in the final stages of mentored training to serve as the basis for the fellow's independent research career.

Contact: <http://www.ahaf.org/research/apply/openawards.html>

Anatomy

AAA Postdoctoral Fellowship Program

Sponsor: American Association of Anatomists

Description: to support an AAA member who is a postdoctoral fellow working in any aspect of biology relevant to the anatomical sciences.

Contact: http://www.anatomy.org/sites/default/files/pdfs/award-grant-scholarship-deadlines_0.pdf

Biomedical Sciences

Career Awards for Medical Scientists

Sponsor: Burroughs Wellcome Fund

Description: to bridge advanced postdoctoral/fellowship training and the early years of faculty services.

Contact: <http://www.bwfund.org/page.php?mode=privateview&pageID=188>

Postdoctoral Research Training

Sponsor: Helen Hay Whitney Foundation

Description: to support postdoctoral fellowships to increase the number of imaginative, well-trained and dedicated medical scientists who hold a PhD or MD degree and are seeking beginning postdoctoral training in basic biomedical research.

Contact: <http://www.hhwf.org/HTMLSrc/ResearchFellowships.html>

Cancer

Fellowship Awards

Sponsor: Jane Coffin Childs Memorial Fund

Description: to support postdoctoral fellows with not more than one year of postdoctoral experience in the following areas: carcinogens of organic and inorganic origins, virus studies, epidemiology, endocrinology, tissue transplants, genetics and mutagenesis, microbiology, biochemistry, recombinant DNA, gene isolation, development, structural biology and growth control.

Contact: <http://www.jccfund.org/fellowship-information>

Postdoctoral Fellowships

Sponsor: American Cancer Society

Description: to support the training of researchers with a doctoral degree to provide initial funding leading to an independent career in cancer research. Deadlines: 4/1 & 10/15 annually.

Contact:

<http://www.cancer.org/Research/ResearchProgramsFunding/FundingOpportunities/IndexofGrants/MentoredTrainingandCareerDevelopmentGrants/index>

Breast Cancer Postdoctoral Fellowships

Sponsor: Susan G. Komen for the Cure

Description: to attract scientists into careers addressing important research questions about breast cancer, expand the skills and expertise of breast cancer researchers in training, and position trainees for independent careers conducting breast cancer research that will directly affect breast cancer patients.

Contact: <http://www5.komen.org/ResearchGrants/FundingOpportunities.html>

Damon Runyon Fellowship Award

Sponsor: Damon Runyon Cancer Research Foundation

Description: to support the training of postdoctoral scientists who received degrees between 10/15/10 and 8/15/11, as they embark on research careers in cancer.

Contact: http://www.damonrunyon.org/for_scientists/categories/category/awards/

Cardiovascular Disease and Stroke

Cardiovascular Disease and Stroke Postdoctoral Fellowship

Sponsor: American Heart Association National and Founders Affiliate

Description: to assist trainees initiate careers in cardiovascular and stroke research while obtaining significant research results under the supervision of a sponsor or mentor; intended to support individuals before they are ready for some stage of independent research.

Contact: http://my.americanheart.org/professional/Research/AboutOurResearch/About-Our-Research_UCM_316908_SubHomePage.jsp

Complex Systems

Postdoctoral Fellowship Award in Studying Complex Systems

Sponsor: James S. McDonnell Foundation

Description: to provide postdoctoral fellowship support to students completing doctoral training, particularly in a multi-disciplinary field such as complex systems science, to broaden their research experience and acquire additional skills prior to pursuing a career in academia or elsewhere.

Contact: <http://www.jsmf.org/apply/fellowship/>

Cystic Fibrosis

Postdoctoral Fellowships

Sponsor: Cystic Fibrosis Foundation

Description: to support fellows interested in careers related to cystic fibrosis research with research projects carried out at the subcellular, cellular, animal, or patient levels.

Contact: <http://www.cff.org/research/ForResearchers/FundingOpportunities/>

Dermatology

Fellowship in Pediatric Dermatology

Sponsor: Dermatology Foundation

Description: **Fellowship in Pediatric Dermatology** to foster the development of clinical scholars in pediatric dermatology that will advance the field through patient care, research, and teaching.

Contact: <http://dermatologyfoundation.org/rap/>

Diabetes

Diabetes Research Fellowships

Sponsor: Juvenile Diabetes Research Foundation

Description: to support post doctoral research focused on addressing the scientific and clinical challenges and gaps to cure type 1 diabetes and its complications through the following two fellowship programs:

- **Postdoctoral Fellowships** designed to attract qualified, promising scientists entering their professional career in the diabetes research field working with a sponsor who can provide a training environment conducive to beginning a career in type 1 diabetes-relevant research.
- **Advanced Postdoctoral Fellowships** to attract qualified and promising health scientists, to provide an opportunity for them to receive full time research training, and to assist them to transition from a fellowship to an independent, faculty-level position.

Contact: http://www.jdrf.org/index.cfm?page_id=103207

Digestive Health and Nutrition

Gastroenterological Fellowship to Faculty Transition Awards

Sponsor: American Gastroenterological Association Research Foundation

Description: to support current postdoctoral trainees in gastroenterology related fields to gain additional laboratory research training in gastrointestinal, liver function, or related diseases.

Contact: <http://www.gastro.org/aga-foundation/grants>

Eating Disorder Research

Hilda and Preston Davis Foundation Postdoctoral Fellowship Program in Eating Disorders Research

Sponsor: Hilda and Preston Davis Foundation

Deadline: 1/13/11

Description: to support postdoctoral fellows conducting research in eating disorders research aimed at understanding the biological causes of eating disorders and accelerating discoveries that will lead to improved therapies for anorexia nervosa and bulimia nervosa.

Contact: <http://www.hria.org/tmfservices/tmfgrants/davis.html>

Education Research

NAE/Spencer Postdoctoral Fellowship Program

Sponsor: National Academy of Education

Description: to support early career scholars working in critical areas of education research.

Contact:

http://www.naeducation.org/NAEd_Spencer_Postdoctoral_Fellowship.html#TopOfPage

Emergency Medicine

Emergency Medicine Foundation Grants

Sponsor: Emergency Medicine Foundation

Description: **EMF Fellowship** to provide the opportunity for formal education in research methodologies and experience in emergency medicine research under an experienced mentor in preparation for an academic career as a research scientist.

Contact: <http://www.emfoundation.org/EMFGrants/>

EMS Research Fellowship Grant

Sponsor: Society for Academic Emergency Medicine

Description: to foster teaching, education and research in emergency medicine.

Contact: <http://www.saem.org/what-we-fund>

Environment

Postdoctoral Program in Environmental Chemistry

Sponsor: Camille & Henry Dreyfus Foundation

Description: to further the development of scientific leadership in the field of environmental chemistry under the mentorship of investigators with well-established research in environmental science or engineering.

Contact: http://www.dreyfus.org/awards/postdoctoral_program.shtml

Gilbert F. White Postdoctoral Fellowship Program

Sponsor: Resources for the Future Foundation

Description: to provide one year of scholarly work in areas related to natural resources, energy, or health and the environment.

Contact:

http://www.rff.org/About_RFF/Pages/GilbertFWhitePostdoctoralFellowshipProgram.aspx

Epilepsy

Epilepsy Fellowship Opportunity

Sponsor: Epilepsy Foundation

Description: to develop behavioral scientists to teach the appropriate psychosocial intervention techniques used in working with people with epilepsy and contribute to the body of behavioral research in epilepsy.

Contact: <http://www.epilepsyfoundation.org/research/grants.cfm>

Frontotemporal Dementias

Frontotemporal Dementias Request for Fellowship Proposals

Sponsor: The Association for Frontotemporal Dementias

Deadline: Letter of Intent: 11/16/10; Application: 1/7/11

Description: to support basic, translational, clinical and/or epidemiological frontotemporal dementias research by an outstanding scientist at the beginning of his/her career. Scientists in the first, second or third year of their postdoctoral training at the start of the fellowship on 7/1/11 are eligible to apply.

Contact: <http://www.ftd-picks.org/research/aftd-research-initiatives/current-rfps>

Health Outcomes

Postdoctoral Fellowships

Sponsor: Pharmaceutical Research and Manufacturers of America Foundation (PhRMA)

Description: to support individuals at the start of their postdoctoral period who are preparing to engage in research that will strengthen representation of health outcomes in schools of pharmacy, medicine, nursing, and public health.

Contact:

http://www.phrmafoundation.org/index.php?option=com_content&view=article&id=93&Itemid=2

Hematology

Scholar Awards

Sponsor: American Society of Hematology

Description: Awards to support basic or clinical/translational research by fellows with more than two but less than five years of postdoctoral research training.

Contact: <http://www.hematology.org/Awards/3972.aspx>

Hemophilia

Judith Graham pool Postdoctoral Research Fellowship

Sponsor: National Hemophilia Foundation

Description: to support applicants who have completed doctoral training and are enrolled in a doctoral, postdoctoral, internship, or residency training program with research topics in clinical or basic research on the biochemical, genetic, hematologic, orthopedic, psychiatric, or dental aspects of the hemophiliac or von Willebrand disease. Other topics, as they pertain to the hemophiliac or von Willebrand disease include rehabilitation, therapeutic modalities, psychosocial issues, women's health issues, liver disease or AIDS/HIV.

Contact:

<http://www.hemophilia.org/NHFWeb/MainPgs/MainNHF.aspx?menuid=74&contentid=534&rptname=research>

HIV/AIDS

Mathilde Krim Fellowships in Basic Biomedical Research

Sponsor: The Foundation for AIDS Research (amfAR)

Description: to support exceptional postdoctoral researchers who are new to the HIV/AIDS field for two years of their postdoctoral research and one additional year in a tenure-track position.

Contact: <http://www.amfar.org/lab/grants/default.aspx?id=8819>

Targeted Biomedical Research

Sponsor: amfAR, the Foundation for AIDS Research

Description: to explore the mechanisms for HIV persistence and the potential for HIV eradication through two-year postdoctoral fellowship awards.

Contact: <http://www.amfar.org/lab/grants/default.aspx?id=9944>

Huntington's Disease

Research Fellowships

Sponsor: John J. Wasmuth Postdoctoral Fellowship Program

Description: to support research projects that will contribute toward identifying and understanding the basic defect of Huntington's disease, including the areas of trinucleotide expansions, animal models, gene therapy, neurobiology, and development of the basal ganglia, cell survival and death, and intercellular signaling in striatal neurons.

Contact: <http://www.hdfoundation.org/funding/funding.php>

Infectious Diseases

Emerging Infectious Diseases Fellowship Program

Sponsor: Association of Public Health Laboratories

Description: to train and prepare scientists for career in public health laboratories by supporting public health initiatives related to infectious disease research.

Contact: <http://www.aphl.org/mycareer/fellowships/eid/pages/default.aspx>

Inflammatory Bowel Disease

Crohns & Colitis Research Fellowship Awards

Sponsor: Crohn's and Colitis Foundation of America

Description: to encourage the development of individuals with research potential to help them prepare for careers of independent basic and/or clinical investigation in the area of Crohn's disease and ulcerative colitis.

Contact: <http://www.ccfa.org/science-and-professionals/research/grants-fellowships/research-fellowship-awards.html>

Informatics

Postdoctoral Fellowships

Sponsor: Pharmaceutical Research and Manufacturers of America Foundation (PhRMA)

Description: to support postdoctoral career development activities of individuals preparing to engage in research that will bridge the gap between experimental and computational approaches in genomic and biomedical studies.

Contact:

http://www.phrmafoundation.org/index.php?option=com_content&view=article&id=93&Itemid=2

Life Sciences

Life Sciences Postdoctoral Fellowship Program

Sponsor: Life Sciences Research Foundation

Description: to provide postdoctoral fellowship support across the spectrum of the life sciences: biochemistry; cell, developmental, molecular, plant, structural, organismic population and evolutionary biology; endocrinology; immunology; microbiology; neurobiology, physiology; and virology with funds raised from industry, foundations, and individuals to support the highest quality young scientists in the best research environments.

Contact: <http://www.lsrf.org/pages/geninfo.htm>

Research Fellowships

Sponsor: Human Frontier Science Program

Description: to support fellowship that provide cross-disciplinary training for researchers through the following programs:

- **Long Term Fellowships** to provide young scientists with three years of research training in an outstanding laboratory in another country. Deadline: 8/26/11.
- **Cross-Disciplinary Fellowships** to provide postdoctoral fellows with degrees in the physical sciences, chemistry, math, engineering and computer sciences with training in biology.

Contact: <http://www.hfsp.org/about/AboutProg.php>

UNESCO-L'OREAL International Fellowships Programme for Young Women in Life Sciences

Sponsor: O'Real

Description: to support graduate and MD or PhD degree level women in fellowship programs who are already engaged in research at the doctoral or postdoctoral level in a field of life sciences. Projects involving animal models are not permitted, and proposals in the area of cosmetics research are not encouraged.

Contact: http://portal.unesco.org/en/ev.php-URL_ID=44170&URL_DO=DO_TOPIC&URL_SECTION=201.html

Liver Disease

NP/PA Clinical Hepatology Fellowship Program

Sponsor: American Association for the Study of Liver Disease (AASLD)

Description: to support licensed Physician Assistants or Nurse Practitioners pursuing a full year of training focused on clinical care in hepatology.

Contact: <http://www.aasld.org/awards/aasld/Pages/ClinicalHepatologyFellowshipProgram.aspx>

Lung Research

Senior Research Training Fellowship

Sponsor: American Lung Association

Description: to support MDs and/or PhDs receiving further academic training as scientific investigators, with particular interest areas: adult pulmonary medicine, pediatric pulmonary medicine, and lung biology.

Contact: <http://www.lung.org/finding-cures/grant-opportunities/grant-offerings.html>

Movement Disorder Research

Dystonia Research 2011 Fellowships

Sponsor: Dystonia Medical Research Foundation

Description: to assist postdoctoral fellows to establish careers in research relevant to dystonia, a movement disorder by supporting research related to the causes, mechanisms, prevention, and treatment of all forms of dystonia.

Contact: http://www.dystonia-foundation.org/pages/funding_opportunities/142.php

Multiple Myeloma

Research Fellow Awards

Sponsor: Multiple Myeloma Research Foundation

Description: to support researchers with less than five years from their post graduate degree and working under the supervision of a research sponsor in research related to multiple myeloma.

Contact: <http://www.themmr.org/research-programs/for-academic-researchers/>

Multiple Sclerosis

Postdoctoral Fellowships

Sponsor: National Multiple Sclerosis Society (NMSS)

Description: to support 1-3 year research projects by postdoctoral fellows under the mentorship of senior scientists designed to stop multiple sclerosis progression, restore function, and end MS forever.

Contact: <http://www.nationalmssociety.org/for-professionals/researchers/get-funding/index.aspx>

Muscular Dystrophy

MDA Research Grants Programs

Sponsor: Muscular Dystrophy Association

Deadlines: Letter of Intent: 6/15, 12/15 annually; Application: 1/15, 7/15 annually

Development Grant to support research by a member of a research team in the lab of an independent investigator who will provide guidance and mentoring.

Contact: <http://www.mdaua.org/research/guidelines.html#researchGrant>

Neuroscience

Neuroscience Scholars Program

Sponsor: Society for Neuroscience

Description: to provide three years of fellowship support to enhance career development and professional networking opportunities for underrepresented diverse undergraduate and graduate students and postdoctoral fellows in neuroscience. Funded by NINDS.

Contact: http://web.sfn.org/index.aspx?pagename=NeuroscienceScholars_Main

Post Doctoral Study Grants

Sponsor: Fondation Fyssen

Description: to encourage all forms of scientific inquiry into cognitive mechanisms, including thought and reasoning, which underlie animal and human behavior, including their biological and cultural bases and phylogenetic and ontogenetic development meant to train and support post-doctoral researchers working in disciplines relevant to the aims of the foundation.

Contact: http://www.fondationfyssen.fr/boursesetude_oa_US.htm

Nuclear Medicine

Benedict Cassen Postdoctoral Fellowships

Sponsor: The Education and Research Foundation for the Society for Nuclear Medicine

Description: to support a research doctoral degree recipient demonstrating an excellent academic record and exceptional research ability in a research program related to nuclear medicine.

Contact: <http://www.snm.org//index.cfm?pageid=1083>

Osteogenesis Imperfecta

Michael Geisman Fellowships

Sponsor: Osteogenesis Imperfecta Foundation

Description: to support post-doctoral trainees who are currently working on projects with clear relevance to OI or who have projects that will enable them to develop expertise in OI research.

Contact: http://www.oif.org/site/PageServer?pagename=RS_GrantApp

Pancreatic Cancer

Research Fellowship Awards

Sponsor: Pancreatic Cancer Action Network

Description: to support mentored basic, translational, clinical, or epidemiological research directly applicable and relevant to pancreatic cancer by candidates with an MD or PhD degree through the following two fellowship programs:

- **Pathway to Leadership Grants** to support highly promising early career scientists in their mentored research phase and in the transition to research independence by postdoctoral/clinical research fellows who began their fellowships on/after 7/2/07.
- **Fellowships Grants** to support highly promising early career scientists in their mentored research phase who began their fellowships on/after 7/2/09.

Contact:

http://www.pancan.org/section_research/research_grants_program/apply_for_a_grant.php

Parkinson's Disease

Postdoctoral Fellowships for Basic Scientists

Sponsor: Parkinson's Disease Foundation

Description: to provide one to three-year mentored fellowships for scientists within five years of receiving their Ph.D. degree.

Contact: http://www.pdf.org/en/grant_funding_fellow#pdflabres

Postdoctoral Fellowships for Clinical Neurologists

Sponsor: Parkinson's Disease Foundation

Deadline: 2/1/11

Description: to support neurologists with an MD who wish to train in movement disorders or have advanced research training once they finished their movement disorder training.

Contact: http://www.pdf.org/en/grant_funding_fellow#pdfclinneuro

Pharmaceutics

Postdoctoral Fellowships

Sponsor: Pharmaceutical Research and Manufacturers of America Foundation (PhRMA)

Description: to support postdoctoral fellows at the start of their fellowship period who will complete the requirements for the PhD in pharmaceutics in two years or less from the time the fellowship begins.

Contact:

http://www.phrmafoundation.org/index.php?option=com_content&view=article&id=93&Itemid=2

Pharmacology/Toxicology

Sponsor: Pharmaceutical Research and Manufacturers of America Foundation (PhRMA)

Description: to support postdoctoral fellows who will establish or extend their credentials in pharmacology/toxicology.

Contact:

http://www.phrmafoundation.org/index.php?option=com_content&view=article&id=93&Itemid=2

Radiology

Radiologic Sciences Research Grants and Awards

Sponsor: Radiological Society of North America Foundation

Description: to encourage careers in the radiologic sciences and bring recognition to previously undiscovered investigators, enabling them to develop research experience, strengthen research techniques and methods, and prepare future major grant applications through the following research and award programs:

Contact: http://rsna.org/Grants_and_Awards.aspx

Reproductive Health

Research and Program Opportunities in Reproductive Health

Sponsor: The Lalor Foundation

Description: to support new researchers in establishing scientific and teaching careers in the field of mammalian reproductive biology as related to the regulation of fertility. Deadline: 1/15 annually.

Contact: <http://66.147.244.193/~lalorfou/>

Rett Syndrome

Post-doctoral Fellowships

Sponsor: International Rett Syndrome Research Foundation

Description: to support two-year post-doctoral fellowships to assist post-doctoral researchers establish careers in fields relevant to Rett syndrome research under the guidance of a sponsoring mentor.

Contact: <http://www.rettsyndrome.org/research/for-scientists/grant-opportunities.html>

Suicide Prevention

Postdoctoral Research Fellows

Sponsor: American Foundation for Suicide Prevention

Description: to support investigators within six years of a PhD or MD degree and not more than three years into their postdoctoral experience.

Contact: http://www.afsp.org/index.cfm?fuseaction=home.viewPage&page_ID=0535FDA2-FA7D-AAE8-D7A9A6BCFFE3574B

Tourette Syndrome

Postdoctoral Fellowships

Sponsor: Tourette Syndrome Association

Description: to support basic and clinical research on all aspects of Tourette syndrome, with a emphasis on studies that have the potential to contribute to the treatment or understanding of Tourette Syndrome, with particular interest in experimental therapeutics, neuropathology, epidemiology, and animal models.

Contact: <http://www.tsa-usa.org/research.html>

Tropical Medicine

Robert E. Shope International Fellowship in Infectious Diseases

Sponsor: American Society of Tropical Medicine and Hygiene

Description: to support international training opportunities in arbovirology and emerging diseases for those with a doctoral degree (MD or PhD) to support travel, living and research expenses to work in laboratories in the tropics.

Contact:

http://www.astmh.org/AM/Template.cfm?Section=ASTMH_Sponsored_Fellowships&Template=/CM/ContentDisplay.cfm&ContentID=3187

Women in Science

Sponsor: American Association for the Advancement of Science

Description: to support US-based women researchers at the beginning of their scientific careers in postdoctoral research positions.

Contact: <http://www.aaas.org/programs/education/loreal.shtml>

For more information about funding opportunities and how to search for funding for postdoctoral research fellowships:

Barbara Humphrey: 464-4322 or humphreb@upstate.edu
