

HEALTHCARE SIMULATION WEEK 2022

SEPTEMBER 12-16

Upstate's Simulation Center & Clinical Skills Center seeking to educate, inspire, and recognize high quality simulation in our corner of the sim world through providing ...

IMMERSIVE SIMULATIONS

Learners experience hands on education and reflection that guide them to a conceptualization of best practice.

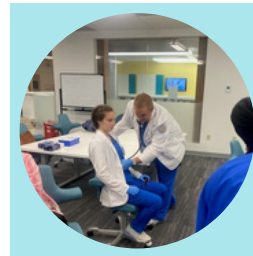

SKILLS TRAINING

Low and high fidelity task trainers for learners to master new techniques and procedures in a safe space.

STANDARDIZED PATIENTS

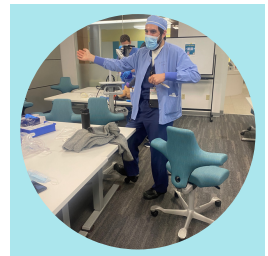

In the Clinical Skills Center, students practice taking medical histories and performing exams on standardized patients.
