

Author agreement

*During the abstract-submission process, the submitting author **MUST** read the following. Upon registration and submission of an abstract the registrant is agreeing to the requirements below.*

Integrity policy

The College of Graduate Studies expects all authors to comply with generally accepted standards to avoid scientific misconduct.

Authorship

Authorship is defined as:

1. Making substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data,
2. Drafting the abstract or revising it critically for important intellectual content,
3. Giving final approval of the version to be published; and
4. Agreeing to be accountable for the work and ensuring that questions to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

Submission of an abstract constitutes a commitment by the author(s) to scientifically defend their work in the format assigned (poster, oral presentation, or both). Failure to do so, if not justified, may result in a notice of retraction of your abstract.

The primary author is the first author listed on the abstract and the presenter of the abstract. Only the primary author may present the abstract, unless there are extenuating circumstances requiring a co-author to present instead. This must be approved by the Student Research Day Committee by emailing your request to Shaunna Arnold at arnoldsh@upstate.edu.

Abstract review

All abstracts submitted for an oral presentation will be reviewed by the respective college and the committee they selected. The committees reserve the right to reject any abstract at its sole discretion. If your abstract has been rejected, you will be notified.

Responsibility statement

- I have read and agree to the Integrity Policy Above.
- I confirm that all authors have read the abstract and approved their authorship of the abstract and agree to the policies outlined.

Registration, and submission of my abstract

I have read and agree to the following terms:

- I am required to register to be considered for an oral presentation. All abstracts not selected for an oral presentation will automatically be added to the poster presentations. Unless rejected.
- Abstracts will be published in the program
- By submitting an abstract, the primary author certifies that they have the approval of all co-authors listed in the application to publish and present the information contained in the abstract, as well as from their PI/advisor, along with all of the policy's and requirements above.
