Hello!

Please mark your calendars and share with your colleagues (and residents!) these upcoming clinician education opportunities:

**PRIMARY CARE EDUCATION SESSION:
Interstitial Lung Diseases/Pulmonary Fibrosis for the Primary Care Physician
Wednesday, July 10, 12:15 PM - 1:00 PM**

Please join Upstate's [Markus Gutsche, MD, Assistant Professor of Medicine](#) to learn more about the diagnosis and treatment of these pulmonary conditions and details for the how and when to make referrals-- just for Upstate Primary Care Providers.

These sessions are held virtually on the second Wednesday of the month, from 12:15-1 pm, specifically designed for Upstate Primary Care Clinicians. Presenters offer a short clinical presentation with opportunities for questions and discussion. In addition, we review when and how to make the most efficient referral to improve patient care. These are not CME credit-bearing activities but are vital opportunities to connect with your Upstate colleagues and expand your knowledge as a patient care provider.

Future presentations (each with a unique link) for your calendars:

- **August 14: Palliative Care Integration in Primary Care-- Part Two**
